

# LITE **ALIGN**

 **Bluetooth Pro** 4-wheel alignment system

## About us

The LiteAlign system has been designed by our UK engineers to ease the day-to-day operations of a busy workshop without compromising on accuracy or strength. Over twenty years of experience has gone into making LiteAlign one of the industry's leading wheel alignment manufacturers.

Our heritage means we bring knowledge and authority to our products, whilst our state-of-the-art production facilities and innovative approach to new ideas provide us with the scope to be at the top our game, leading from the front and pioneering new technologies so that we can provide our customers with the ultimate in 4-wheel alignment technology.

Offering competitive pricing, readily available parts, exceptional service and aftersales support, LiteAlign is the go-to manufacturer for garages and workshops across the UK.

# Bluetooth Pro

The Bluetooth Pro Ravaglioli Wheel Aligner is our top selling wheel alignment equipment featuring 6 sensor CCD four wheel alignment technology and is fully wireless, using the latest Bluetooth communication for fast and easy use. It is also ADAS Compatible

Easy-to-use features make it the ideal 4-wheel aligner for any bodyshop or workshop looking for a great value machine. It can be used with 4- and 2-post lifts and in-ground wheel-free scissor lifts. The direct contact charging and calibration system means the whole wheel alignment package is 100% cable-free for a safe workshop. Each measuring head also has a remote control to allow you to run the full wheel alignment process from any corner of the car.

## Bluetooth Pro Package

**£6920 + VAT**

### What's included:

- Front turn plates
- Pro wheel clamps (NO RUN OUT)
- Steering wheel clamp
- Brake pedal clamp
- SUV wheel clamp extension arms
- Quality PC, 20" monitor and colour printer
- Remote controlled heads
- Quality protective cabinet
- Auto-charging head storage system
- Latest database
- Full on-site training
- ADAS-compatible operating system
- Smartphone/tablet app for use next to vehicle
- Shoot and Go compatible operating system
- FREE internet software support

The latest software extensions allow the use of a smartphone or tablet app so line-of-sight access to the CPU is not required. A spoiler program operates automatically for sports or modified cars, and the system is compatible with our **ADAS EXTENSION PACK** to future-proof your business.

**NOW – Comes with FREE wheel clamp extension arms to fit most modern SUVs**

Shoot & Go extension pack speeds up car recognition and reduces errors. Simply photograph the car with your tablet or type in the registration number manually, and our sophisticated system will do the rest. We have a huge international database of vehicles to draw on.

This is truly one of the most versatile pieces of wheel alignment equipment on the market today. It is capable of handling all your wheel alignment needs from Day One and will help you grow in this profitable sector. The Bluetooth Pro wheel aligner is robust and reliable, and Lite Align has a first-class backup service to support you.
