

LITE **ALIGN**

 **250**

2-wheel laser alignment system

About us

The LiteAlign system has been designed by our UK engineers to ease the day-to-day operations of a busy workshop without compromising on accuracy or strength. Over twenty years of experience has gone into making LiteAlign one of the industry's leading wheel alignment manufacturers.

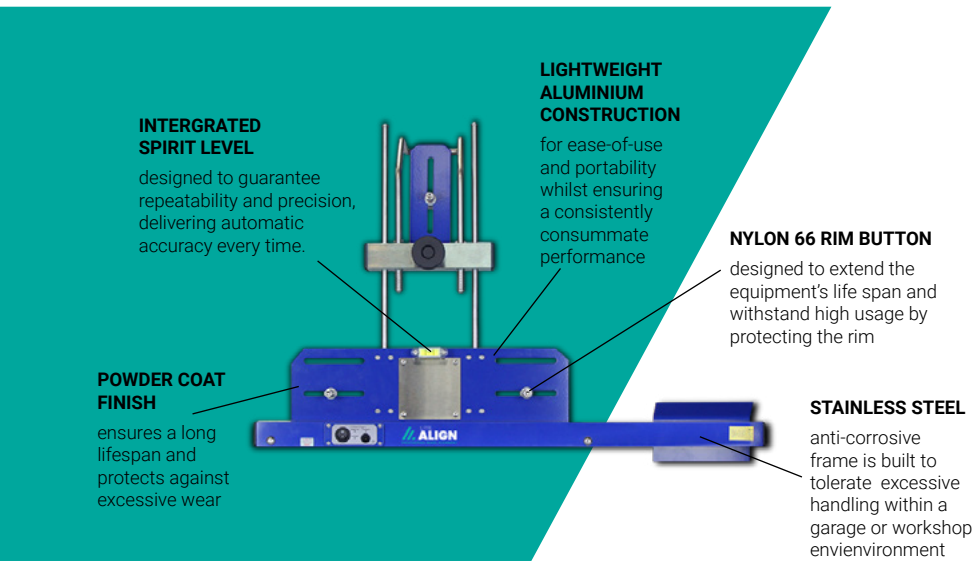

Our heritage means we bring knowledge and authority to our products, whilst our state-of-the-art production facilities and innovative approach to new ideas provide us with the scope to be at the top our game, leading from the front and pioneering new technologies so that we can provide our customers with the ultimate in 4-wheel alignment technology.

Offering competitive pricing, readily available parts, exceptional service and aftersales support, LiteAlign is the go-to manufacturer for garages and workshops across the UK.

The compact 250 is a two-wheel alignment package, designed to maximise garage space whilst being robust enough to allow garages to confidently assure their customers of the ultimate in wheel alignment.

Includes:

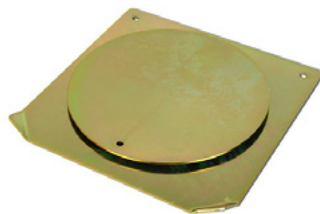

- two front heads
- compact wall mount
