**650**

4-wheel laser alignment system

## About us

The LiteAlign system has been designed by our UK engineers to ease the day-to-day operations of a busy workshop without compromising on accuracy or strength. Over twenty years of experience has gone into making LiteAlign one of the industry's leading wheel alignment manufacturers.

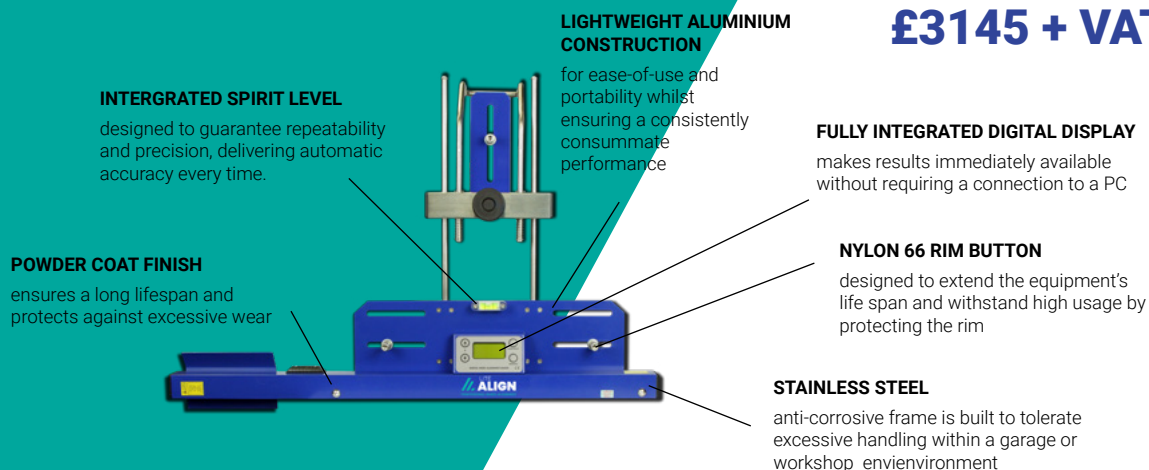

Our heritage means we bring knowledge and authority to our products, whilst our state-of-the-art production facilities and innovative approach to new ideas provide us with the scope to be at the top of our game, leading from the front and pioneering new technologies so that we can provide our customers with the ultimate in 4-wheel alignment technology.

Offering competitive pricing, readily available parts, exceptional service and aftersales support, LiteAlign is the go-to manufacturer for garages and workshops across the UK.

# 650

The 650 is the most advanced of our systems; it comes with AUTODATA database capabilities as well as an integral electronic Camber Caster gauge, easy to read red/green results which can be printed, digital spirit level and a battery status display in the measuring unit. This is the definitive 4-wheel alignment solution, incorporating all the features of our 450 plus cutting edge new wireless technology for the ultimate wheel alignment package.

**STARTING FROM**  
**£3145 + VAT**

## STEEL POWDER COATED RACK

for superior protection in a harsh workshop environment, designed to look smart whilst being robust enough to cope with the daily demands.

## WALL MOUNTED RACK

facilitates the convenient and compact storage of the wheel alignment gauges and accessories
