

LITE **ALIGN**

 **3D Bluetooth** 4-wheel alignment system

About us

The LiteAlign system has been designed by our UK engineers to ease the day-to-day operations of a busy workshop without compromising on accuracy or strength. Over twenty years of experience has gone into making LiteAlign one of the industry's leading wheel alignment manufacturers.

Our heritage means we bring knowledge and authority to our products, whilst our state-of-the-art production facilities and innovative approach to new ideas provide us with the scope to be at the top of our game, leading from the front and pioneering new technologies so that we can provide our customers with the ultimate in 4-wheel alignment technology.

Offering competitive pricing, readily available parts, exceptional service and aftersales support, LiteAlign is the go-to manufacturer for garages and workshops across the UK.

3D Bluetooth

The 3D Bluetooth Ravaglioli Wheel Aligner is our latest OEM wheel aligner. 3D wheel alignment technology has been around for 20 years, and we have moved the goalposts by making a practical, fast and easy-to-use 3D Ravaglioli wheel aligner – Towerless-technology makes this the 3D unit of choice.

- Can be moved between ramps
- Works with remote 2 minute Quick Check without need for a second aligner
- ADAS compatible front & rear axle measurements
- Full front & rear subframe location check
- Futureproof – cameras will interface with rear axle ADAS when introduced
- A simple solution for lowered and performance cars
- The most competitively priced 3D system available in the UK

3D Bluetooth Package

£10,995 + VAT

What's included:

- Front turn plates
